

NEW SYSTEM 4 THERMOMETER CLOSE-UP LENSES

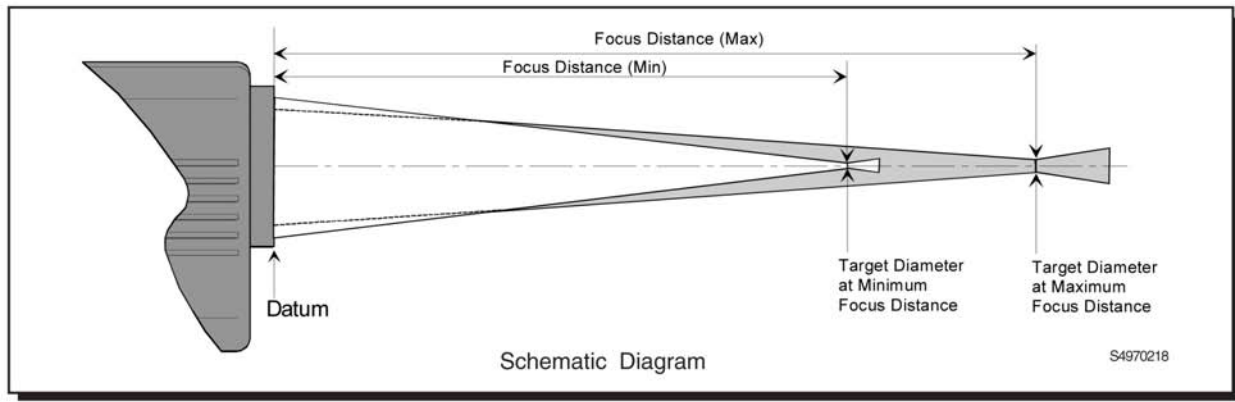

A set of five Auxiliary Close-up Lenses is now available for standard bodied versions of System 4 thermometers extending the small target capability down to 0.45mm.

The following tables give the target spot at the minimum and maximum focus distance for each close-up lens.

Key Features

- Covers focusing distances from 100 to 500mm.
- Readily fit into existing auxiliary lens holder. (See Note 1).
- Minimal effect on calibration. (See Note 2).
- Maintains existing thermometer field of view.
- Suitable for all M1, M2, M4, M5, M6, M7 and R1 standard body thermometers in the System 4 range.

Thermometer Type		M1 600/1600C M2 300/1100C		M1 800/2600C R1 1000/2600C		M4 50/250C		M4 150/550C		R1 600/1600C

NOTE 1:
A lens key (Part No. 026.925) is required to change the lens.

NOTE 2:
A calibration check is necessary after replacing the protection window/short focus auxiliary lens with a close-up lens.

CE The Quality Management System of Land Instruments International Ltd. is approved to BS EN ISO9001:2000 for the design and manufacture, stockholding, in-house repair and site servicing of non contact temperature measuring instrumentation. Associated software designed and developed in accordance with TickIT. Calibration certificates are available from our UKAS accredited Calibration Laboratory No. 0034. The Land calibration laboratory complies with BS EN ISO/IEC 17025.
